RE: Houston Chronicle

Further clarification-

The original disk contained info on the facility's history. Enforcement is making another copy of that for us.

All of that info is also on the FOIA website. A separate FOIA, which is still in process, is also available on the site.

Historical information is available under EPA-R6-2013-001346

Explosion/investigation information is available under EPA-R6-2015-001601
